Procurement in UNHCR

In trying to help and protect some of the world's most vulnerable people in so many different places and types of environment, UNHCR must purchase goods and services worldwide. This might range from buying fleets of heavy duty vehicles needed in the most inaccessible parts of the African continent to purchasing needles and thread for a self-help project in Pakistan. UNHCR also hires consultants and specialized companies and their staff for projects.

In line with UN Financial Regulations and Rules:

UNHCR procurement is based on fairness, integrity and transparency through competition and best value for money, taking into consideration the best interest of the organization

Priority is to source in areas of operation (when prices are competitive and other conditions allow)

UNHCR uses competitive bidding to obtain goods and services
Exceptions to this are limited to a few cases only

Procurement in UNHCR

Procurement conditions

- UNHCR does not purchase from companies engaged in the sale or manufacture, either directly or indirectly, of antipersonnel mines or any components produced primarily for the operation thereof
- UNHCR does not purchase from companies engaged in any practice inconsistent with the rights set forth in the Convention on the Rights of the Child
- Building on the philosophy and achievements of the UN Global Compact, UNHCR envisions a world in which the private sector plays a constructive role in finding durable solutions for people forced to flee their homes, including refugees and the internally displaced, as well as returnees.
- To achieve this, we proactively engage with corporations and foundations eager to help drive change and find innovative solutions to refugee issues. This collaboration can take many forms ranging from special events to cause-related marketing campaigns reaching millions of people
