UNOPS MISSION & VISION

Our mission is to help people build better lives and countries achieve sustainable development.

Our vision is a world where people can live full lives supported by appropriate, sustainable and resilient infrastructure and by the efficient, transparent use of public resources in procurement and project management

WHO WE ARE

We help our partners deliver over \$1.4 billion worth of aid and development projects in over 80 countries every year. They depend on us to supplement their own capacities, improve speed, reduce risks, boost cost-effectiveness and increase quality.

Based in Copenhagen, UNOPS is fully self-financing, prompting efficiency and financial discipline.

We provide support in three main areas:

- Infrastructure
- Procurement
- Project management

with a focus on sustainable solutions.

VALUES: SERVICE TO OTHERS

National ownership and capacity

We respect and support national ownership and help develop national capacity.

Accountability for results and transparency

We ensure our own accountability for resources entrusted to us, and for contributions we make to the sustainable results of our partners.

Partnerships and coordination

We recognize that strong partnerships and effective coordination among diverse actors, including the United Nations, governments, non-governmental organizations and the private sector, are crucial to efficiency and innovation.

Excellence

We believe that we will add value and make strong contributions to the sustainable results of our partners only if our practices and performance are of recognized world-class standards of excellence and are well-adapted to local conditions.

WHAT WE DO

UNOPS focuses its operations in its core areas of expertise: project management, physical infrastructure and procurement. Sustainability is at the core of everything we do.

Within these areas, we offer three kinds of services that are tailored to the needs of partners:

- Advisory: developing national capacity at strategic and/or operational level in our core mandated areas of project management, physical infrastructure and procurement.
- Implementation: implementing partners' projects efficiently and effectively with the involvement of all stakeholders and building on available national capacity.
- Transactional: providing stand-alone HR management, procurement services and fund management.

EXCELLENCE: STANDARDS

UNOPS continuously benchmarks against external bodies, striving for external certifications of processes and adopting internationally recognized best practices and standards.

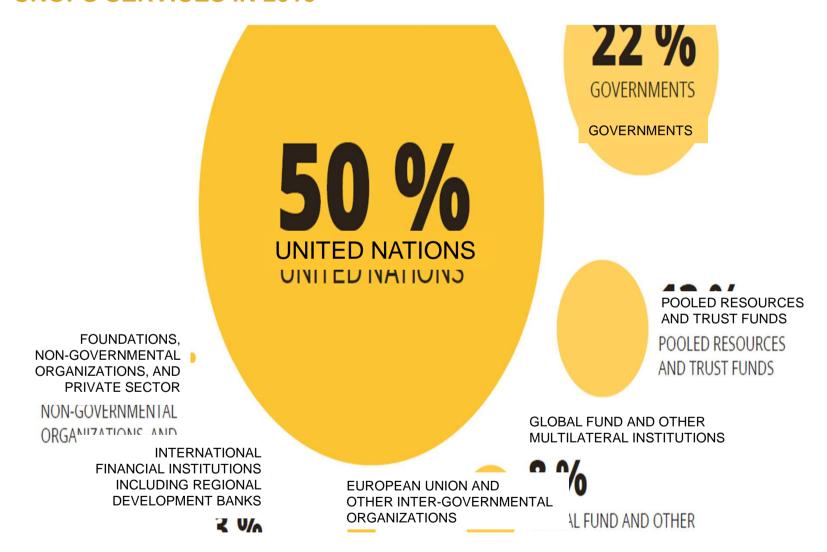

WHO WE WORK WITH: DISTRIBUTION OF \$1.4 BILLION OF UNOPS SERVICES IN 2015

All information about the partners that we work with, the volume and content of the contracts signed, and the goals and progress of projects can be accessed via our detailed transparency portal, <u>data.unops.org</u>

WHERE WE WORK

Projects worldwide on data.unops.org

Points on the map represent project locations where one or more active UNOPS projects are delivering.

TOTAL: \$1.4 billion delivery
